ACFN
DENE LANDS AND RESOURCE
MANAGEMENT (DLRM)

Background:group scope

- The Nj Chu Tu Kelnj Impact Assessment Advisory Group is committed to confidently protecting and advancing the interests of ACFN.
- The Nj Chu Tu Kelnj Impact Assessment Advisory Group is committed to confidently protecting and advancing the interests of ACFN.
- The Advisory bodies recommendations will be firmly grounded in ACFN knowledge, laws, values, and protocols

This group is guided by ACFN Laws, Values, and Protocol providing recommendations to support ACFN rights and way of life including:

- Advocating for Land and Water Rights
- Engagement of Youth and Elders: Their combined wisdom and fresh perspectives are vital for guiding our future.
- Understanding Ecosystem Interconnection: Protecting the deep and dynamic connection between thriving ecosystems in ACFN homelands is essential to ensure that future generations can live and practice our Denesuline way of life.
- Community-Driven Rights Impact Assessments: community-based impact assessments provide informed guidance on the protection and enhancement of our homelands. This helps create initiatives that uphold our rights and promote sustainability for generations to come
